

BreakThrough™ Report

Press Release Title: ¡Triunfo para los dreamers! El sueño de miles de jóvenes indocumentados toma un nuevo rumbo

Press Release Distribution Date: June 20, 2012

Total Number of Contacts: 3345

Document Overview

Section 1. WebMonitor™ Report

This is a list of the links where your press release has landed online. This list is a sampling and **not** comprehensive. You can expect this list to grow as the press release continues to breakthrough to new media and websites. (If you purchased **Premier Media Monitoring** you will receive another report in two weeks.) Every link to your website or exposure for your press release is important in promoting your content and achieving the ultimate goal of breaking through to your clientele, even when the website might seem unrelated to your topic.

Section 2. Media List

This is a complete listing of where we sent your press release via email. This list includes the names of newspapers, magazines, journals, television shows, radio shows, blogs, etc., as well as other important details. This list is organized in alphabetical order by outlet name.

Other things to keep in mind...

This press release distribution is the beginning of your publicity campaign. So, congratulations! Your information is listed for the contact, so members of the media would get in touch with you directly. If they happen to contact us, we will, of course, forward it to you.

While you are waiting for media contact, here are a few more things you can do with the press release now that it has been distributed to maximize your media exposure:

1. Link to the press release from your website.
2. Share your press release via social media (Twitter, Facebook) with your friends and colleagues using the social media toolbar on the press release on PR NewsChannel... or copy and paste the link directly into your social media page.
3. Create an Alert for your name, your book title and/or your release topic so you can carefully monitor mentions of you or your book:
 - Google: www.google.com/alerts
 - Yahoo: alerts.yahoo.com
 - Bing: news.bing.com

I. WebMonitor™ Report

This WebMonitor™ report includes links to the actual press release as it appears on various Internet sites. This is just a fraction of the websites where the press release has posted. While these sites may seem unrelated to your book topic, they are known to have a high volume of traffic especially with media personnel.
