

August 8, 2017

Mr. Robert S. Mueller III
Special Counsel
U.S. Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530-0001

Dear Mr. Mueller;

RE: Seth Rich, 2016 Presidential election, and Russia collusion

The murder of Seth Rich may be the “missing link” that connects otherwise incongruent events relating to Russia collusion in the 2016 presidential election.

Therefore, as director of The Profiling Project (TPP), the independent, nonpartisan group investigating the murder of Seth Rich, I am formally asking that the Special Counsel widen its investigation to include this case.

Since forming TPP, my team and I have become a clearinghouse for an array of tips and information related to the case. Based on multiple pieces of confidential, verifiable information we received at TPP, coupled with allegations asserted in the lawsuit *Rod Wheeler v. TWENTY-FIRST CENTURY FOX, INC., FOX NEWS NETWORK LLC* filed last Tuesday in New York, I believe there is sufficient evidence to warrant the Special Counsel’s involvement.

We will share what we know and I am willing to testify under oath.

Because of my deep connection to the Washington political community; because of the hurt I personally felt for Mr. Rich’s parents; and for other compelling reasons that would take too long to list, I committed many months ago to do everything I could to catch the killer or killers. I added \$105,000 to the reward, created the website WhoKilledSeth.com, erected billboards and founded the Project.

Insofar as you deem my input to be helpful, I am eager and willing to cooperate with your investigation.

With best regards,

Jack Burkman
